#### Glossary of Items on Nichols Bulls

**Breed:** Angus, Simmental, SX, and DX Composites

**Brand/Tag:** Ear Tag, Brand, Tattoo & Name are the same.

**Color:** B-Black, BWF-Black-baldy, (may have other white)

**Horn/Poll:** P-Smooth Polled, S-Polled with scurs

**Birth date:** Birthday of animal.

**Birth Wt.:** Actual birth weight.

**205 Adj.:** Wean weight adjusted to 205 days of age

**205 Ratio:** An within-herd index of calf's weaning weight

**Cum ADG:** Average Daily Gain for the entire feedlot test period computed from actual weaning weight to yearling weight

**EPDs:** Expected Progeny Differences are estimates based on the data of the individual animal and his relatives in all the different herds across the breed's population. EPD's figures are in actual pounds, plus (+) or minus (-) for each trait. Those below would be minus (-) and those above average would be plus (+). You can expect these differences in the actual weight of your bull's calves. EPDs predict the transmitting ability of each bull when compared with the many thousands of bulls in each breed.

**EPD Note:** Nichols Angus are on an Angus Base. Nichols Simmentals, South Devon, and all Composite are on the Simmental base.

**Color:** hom is homozygous black, het is heterozygous red carrier

**Carcass EPDs:** Marbling: Intramuscular fat in the rib eye determines USDA quality grade, Prime, CAB, Choice, or Select BF: Back fat thickness in inches measured on the rib eye.

**REA:** Rib eye area in square inches measured at the 13th rib.

**Calving Ease:** Suitable to breed "heifers" or "cows".

**Feed Efficiency Index:** SmartFeed bunk system at Nichols Farms is used to measure individual feed efficiency on bulls and heifers. The feed efficiency on each bull: NEI (Nichols Efficiency Index) - \$ Index combining both Average Daily Gain and Relative Feed Intake for economic gain.

#### Health Shield

Bulls represented with the Nichols Health Shield Emblem represent bulls that are in the Top 30% of Nichols Genetic Evaluation for resistance to Bovine Respiratory Disease. The probability (In %) of a calf not being treated for respiratory disease post weaning.

#### Sale Terms and Conditions

Nichols will retain a 25% semen share interest in every bull that is for sale today.

Bulls will be semen checked prior to pick up or delivery. Nichols Farms offers death and loss of use warranty on their sale bulls. This warranty must be purchased at time of sale. Bulls are guaranteed to service cows. Any bull that settles healthy cows by natural service or passes a fertility test made by a certified veterinarian mutually agreed upon by Nichols Farms and buyer shall be considered a breeder.

- Injury or disease to the animal occurring after the sale.
- Animals put in service or bred at less than 12 months of age.

## Feed Efficiency EPDs

SmartFeed bunk system at Nichols Farms is used to measure individual feed efficiency on bulls and heifers. As the data is gathered we have added three points of information on these Bulls.

Feed Efficiency Index: SmartFeed bunk system at Nichols Farms is used to measure individual feed efficiency on bulls and heifers. The feed efficiency on each bull: NEI (Nichols Efficiency Index) - \$ Index combining both Average Daily Gain and Relative Feed Intake for economic gain.
